

High Fructose Corn Syrup, also known as HFCS, is a natural sweetener and an ideal substitute of sugar in nowadays.

It derives from NO-GMO corn, from the process of Liquefying, saccharification, membrane filtration, iron exchange, and decolor filtering ect..

It is a pure sweetener in the diet. Fructose is found naturally in many fruits and vegetables and as one of the several components of honey.

It is low of calorie and very good for human health.

High Fructose Corn Syrup

Application: Coffee, Bubble Tea, Ice Cream, Baked Goods, Juice Beverage, and other food industry.

Ice Cream

- Provides fermentable sugars enhances fruit and spice flavors.
- Controls moisture to prevent separation and regulates tartness

Spaghetti Sauce

- Enhances flavor and balance replaces the "pinch of table sugar" grandma added to enhance spice flavor and balances the variable tartness of tomatoes.

Coffee

- Provides consistent sweetener and keep more flavored.

Baked Goods

- Gives a pleasing brown crust to bread and cakes.

Frozen Beverages

- Has a lower freezing point, so frozen beverage concentrates have the added convenience.

Bubble Tea

- Provides greater stability in acidic carbonated sodas than sucrose and flavor remain consistent and stable over the entire shelf life of the product.

Application	Replace Sugar Rate(%)	Advantage
Coffee	0-100	Sweetener, Enhance flavor
Bubble Tea	0-100	Sweetener, Enhance flavor, Save cost
Ice Cream	20-50	Sweetener, Enhance flavor, Save cost
Baked foods	30-100	Sweetener, Enhance flavor, Soft texture
Juice Beverage	0-100	Sweetener, Enhance flavor, Save cost
Sauce	0-100	Sweetener, Enhance spice flavor

Package: 25kg bag in box; 25kg Tin cans; 2.5kg drums; 6kg drums; 30kg drums

Package	Quantity/20' FCL	Weight/20' FCL
25kg bag in Box	800Cartons	20MTs
25kg Tin cans	900Tin cans	22.5MTs
4*6kg drums in Box	850 Cartons	20.4MTs
6*2.5kg drums in Box	1500 Cartons	22.5MTs
22kg drums	950 drums	20.9MTs

Advantage:

1. A barrel of light weight, convenient carrying.
2. Volume small, and small space occupation
3. Material of stronger, it's no easy to leakage
