公司简介

杭州茗宝食品有限公司是一家专业致力于以茶叶深加工为主的现代农产品深加工企业；地处美丽的西子湖畔，杭州西溪湿地边的闲林工业园区内，交通十分便利。公司成立于世纪之交，现已建成一个集科研、生产、贸易于一体的现代化新工厂。新厂建有17500平米的厂房及综合用房，四条茶叶及其他植物提取生产线，年生产能力近3000吨。经过在速溶茶行业十余年的奋斗和努力及广大客户的支持，我们已经成为国内外饮料以及奶茶行业的知名原料供应商，并与众多国际知名品牌建立战略合作伙伴关系。

公司从成立之初就确立了重点开发高端产品的方向，选用浙江、安徽等地的炒青、蒸青、烘青绿茶，西湖龙井，福建安溪铁观音、闽北水仙，祁门红茶，凤庆滇红，以及国际知名的锡兰红茶、阿萨姆红茶、肯尼亚红茶等为原料。冷溶型产品采用中低温连续逆流浸提、微胶囊香气包埋、超滤膜过滤、反渗透膜浓缩、喷雾干燥等先进工艺，产品较好地保持了茶叶原有的色、香、味，产品澄清性好，产品抗冷浑性和抗酸性佳，适合加工各类液体茶饮料和小包装速溶茶。公司的热溶型系列产品，是经过科学拼配，汲取各产区茶叶之精华，热溶时汤色明亮、茶香浓郁、滋味浓醇鲜爽，是奶茶、糖果及其他茶食品加工的优质原料。

Company Profile

Hangzhou Mingbao Food Co., Ltd., a Sino-foreign joint venture specializes in deep processing of tea. Located at the Xianlin Industrial Area in the western suburb of Hangzhou, near the picturesque West Lake, it enjoys convenient traffic. Established at the turn of the century, the company has built a new factory with scientific research, production and trade integrated. The new factory has workshops and building complex covering an area of 17,500 square meters, as well as four production lines for the extraction of tea and other plants with an annual productive capacity of 3,000 tons. After over ten years of effort and with the support of our clients, we have become one of the well-known raw material suppliers for industries home and abroad engaged in beverage and milk tea production. Moreover, we have established strategic cooperative partnership with many internationally renowned brands.

Since the day it was founded, the company has set up the orientation of developing high-grade products from selected material of Steamed green tea, Roasted green tea, Baked green tea, and West Lake Longjing green tea produced in Zhejiang and Anhui; Anxi Tieguanyin Tea (Oolong Tea) of Fujian; Minbei Sney Sian; Qimen Black Tea of Anhui; and Fengqing Black Tea of Yunnan, as also a variety of internationally renowned Ceylon Black Tea, Assam Black Tea and Kenya Black Tea. The cold-instant products go through advanced processes such as middle-low temperature continuous countercurrent leaching, microcapsule aroma embedding, ultrafiltration membrane filtration, reverse osmosis membrane concentration, and spray drying. Products undergone such advanced technological process retain the original color, fragrance and taste of tea. Enjoying good quality of clarity and resistance to cold muddy and to acid, they are, therefore, suitable for processing into various liquid tea beverages and instant tea in small pack. Our products of hot instant tea series are made by absorbing the essence of tea in different producing areas blended in a scientific way. When melting in hot water, they are bright in liquor, fragrant in smell, sweet and fresh in taste. They are very good raw materials for milk tea, candy, and other tea products.

企业文化

企业愿景

抹茶

产品简介

精选专门定制、鲜嫩度较好的杭州余杭地区的覆盖蒸青茶、碾茶为原料，采用低温研磨技术，制成超微细粉，粒径可达800目以上，高档产品粒径可达2000目以上。抹茶含有丰富的营养成分和微量元素，其主要成分为茶多酚、咖啡碱、游离氨基酸、叶绿素、蛋白质、芳香物质、纤维素、维生素C、A、B1、B2、B3、B5、B6、E、K、H等，微量元素钾、钙、镁、铁、钠、锌、硒、氟等近30余种。抹茶还含有大量膳食纤维，对健康十分有益。抹茶具有消食解腻、减肥健美、抗氧化、降三高等功效。

Product introduction

Matcha superfine powders is made from selected custom-made fresh steamed green tea and grind tea from Yuhang, Hangzhou and by cryogenic grinding technology so that the particle size can reach 800 mesh or more and high-end product size can reach 2000 mesh and above. Matcha is rich in nutrients and trace elements necessary for the body, the main component of it are tea polyphenols, caffeine, free amino acids, chlorophyll, protein, aromatic substances, fiber, vitamins C, A, B1, B2, B3, B5, B6, E, K, H, etc., trace elements potassium, calcium, magnesium, iron, sodium, zinc, selenium, fluoride and other nearly 30 species. Matcha also contains large amounts of dietary fiber, which is very beneficial to health. Matcha also has effects of promoting digestion, losing weight, anti-oxidation and lowering high cholesterol, high blood pressure and high blood sugar.

茶叶种植园-径山基地

抹茶

产品特点

茗宝抹茶粉外观色泽翠绿明亮，光泽度较好，汤色墨绿，海苔香高长，显清香，滋味鲜爽醇，并具有以下品质特点：

三原 抹茶具有原色、原味、原质的特点

三清 清香、清口、略带青（草）气

三高 蛋白质、氨基酸和叶绿素的含量很高

双绿 抹茶是有机绿色食品，抹茶呈天然翠绿色至深绿色

Matcha

Product feature

Mingbao matcha powder is emerald green and bright in color with high gloss. It is dark green in liquid with long lasting sea sedge, fresh fragrance and mellow in taste. Besides, our matcha powder's content of protein, amino acid and chlorophyll are all very high.

Product application

Mingbao matcha powder can be applied for producing liquid and solid beverages, frozen foods, baked goods, sweets, jellies, cosmetics, health products and etc.

产品应用

茗宝抹茶粉可应用于液体饮料、固体饮料、冷冻食品、烘焙食品、糖果、果冻、化妆品、保健品等生产中。

速溶绿茶粉

产品简介 精选浙江、福建、云南等地的蒸青茶、炒青茶、烘青茶、晒青茶为原料，经低温提取、微胶囊香气包埋、超滤膜过滤、反渗透膜浓缩、低温喷雾干燥等现代工艺加工而成，富含茶多酚、氨基酸、蛋白质、多糖、生物碱等多种营养物质。

Instant green tea powder

Product introduction

The instant green tea powder is produced with choicest material of Steamed green tea, Roasted green tea, Baked green tea and Sun-dried green tea of Zhejiang, Fujian, and Yunnan and through modernized technological process of low-temperature extraction, microcapsule aroma embedding, ultrafiltration membrane filtration, reverse osmosis membrane concentration and spray drying at low temperature. It contains tea polyphenol, amino acid, protein, polysaccharide, alkaloid and many other nutrient substances.

Product feature

Steamed green tea powder: the tea is in emerald green and bright color with fresh aroma and sea sedge fragrance and has fresh and mellow taste.

Baked green tea powder: the tea is in light green and bright color with rich but fresh aroma and has fresh and sweet aftertaste.

Roasted green tea powder: the tea is in olivine and bright color with lasting aroma and chestnut fragrance and has thick taste.

Sun-dried green powder: the tea is in olivine and bright color with full aroma and has fresh and astringency taste.

Product application

The product can be used to make liquid, solid green tea beverage or frozen foods, baked goods, sweets, cookies, breads, jellies, health care products, cosmetics and etc.

产品特点

蒸青风味绿茶粉：茶汤翠绿明亮，香气清新，有海苔香，滋味鲜爽甘醇。

烘青风味绿茶粉：茶汤嫩绿明亮，香气浓郁清新，滋味鲜爽，有回甘。

炒青风味绿茶粉：茶汤黄绿明亮，香高持久，栗香浓郁，滋味醇厚。

晒青风味绿茶粉：茶汤黄绿明亮，香味浓醇，滋味鲜爽，有收敛性。

产品应用

可应用于调制液体、固体绿茶饮料或冷冻食品、烘焙食品、糖果、饼干、面包、果冻、保健品、化妆品等。

热溶型速溶红茶粉

产品简介 热溶型速溶红茶粉以印度阿萨姆红茶、斯里兰卡锡兰红茶、肯尼亚红茶、云南滇红CTC等世界知名红茶为主要原料，经科学合理拼配，采用现代高新技术提炼而成，较好的保留了原茶风味。

Hot instant black tea powder

Product introduction

Taking world-known India Assam black tea, Ceylon black tea, Kenya black tea and Yunnan black tea as main materials, the product is blended according to scientific formula and refined through modern high technology so that original taste of tea can be maintained.

Product feature

Hot instant black tea powder is yellowish red and turns to orange red after dissolving in water. It has rich aroma as well as fruit and honey fragrance and has fresh and mellow taste. After blending with milk, milk tea will be ginger with golden ripples, thus the tea powder is very suitable for making mid and high end milk tea.

Product application

Hot instant black tea powder is mainly used for making solid milk red tea or for making black tea; moreover, it can be used in baked goods, sweets, cookies, breads, jellies, health care products and etc.

产品特点

热溶型速溶红茶粉产品外形色泽黄红，溶解后，茶汤橙红明亮，香气浓郁，有花果香、蜜甜香，滋味浓醇鲜爽，与奶结合后，奶茶汤色姜黄泛金圈，适宜于生产中高端奶茶。

产品应用

热溶型速溶红茶粉主要应用于调制固体红茶奶茶，亦可作为纯茶清饮，还可以用于烘焙食品、糖果、饼干、面包、果冻、保健品等。

冷溶型速溶红茶粉

产品简介 冷溶型速溶红茶粉以云南滇红、安徽祁门红茶、福建闽红等为主要原料，经科学合理拼配，采用现代高新技术提炼而成，最大限度的保留了红茶中各种营养成分。

Cold instant black tea powder

Product introduction

Taking Yunnan black tea, Anhui Qimen black tea and Fujian black tea as main materials, the product is blended according to scientific formula and refined through modern high technology so that all nutrition facts of black tea can be maintained at the most extend.

Product feature

Cold instant black tea powder is reddish brown and turns to bright red after dissolving in water. It has sweet aroma and mellow taste. It has high dissolvability and is able to fully dissolve in ice water. What's more, it is stable under acidic condition and is very suitable for producing ice black tea beverage and pure black tea beverage.

Product application

Cold instant black tea powder is mainly used for making liquid milk tea beverage or in baked goods, sweets, cookies, breads, jellies, health care products and etc.

产品特点 冷溶型速溶红茶粉色泽红褐，茶汤红艳明亮，香气高甜，滋味醇爽，溶解性好，在冰水中完全溶解，酸性条件下非常稳定，十分适宜生产冰红茶饮料及纯红茶饮料。

产品应用 冷溶型速溶红茶粉主要应用于调制液体茶饮料，还可以用于烘焙食品、糖果、饼干、面包、果冻、保健品等。

速溶乌龙茶粉

产品简介 速溶乌龙茶粉有多个不同风格的产品，分别以安溪铁观音、武夷岩茶、闽北水仙乌龙茶等为主要原料，采用现代高新技术精炼而成，产品品质优异，特色鲜明。

Instant Oolong tea powder

Product introduction

We have several oolong tea powder products with different styles. They are mainly made from Anxi Tieguanyin Tea, Wuyi Rock Tea and Minbei Suey Sian respectively and refined through modern high technology. The products have outstanding quality and bright color.

Product feature

Tieguanyin oolong tea powder: the tea has delicate and strong fragrance, obvious "rhyme", golden and bright color as well as rich and sweet aftertaste.
Rock oolong tea powder: the tea has strong and meaning fragrance, long lasting "rock essence", pure orange color and rich and fresh taste.
Suey Sian oolong tea powder: the tea has strong aroma and orchid fragrance, bright orange color and mellow and sweet aftertaste.

Product application

Instant oolong tea powder is mainly used for making liquid oolong tea beverage and solid oolong tea beverage or in baked goods, sweets, cookies, breads, jellies, health care products and etc.

产品特点

铁观音风味乌龙茶粉：香气清香馥郁，“音韵”明显，汤色金黄明亮，滋味醇厚甜鲜有回甘。

岩茶风味乌龙茶粉：香气馥郁隽永，“岩韵”悠长，汤色橙黄清澈，滋味醇厚甘爽。

水仙风味乌龙茶粉：香气浓郁，具兰花清香，汤色橙红明亮，滋味醇厚回

产品应用

速溶乌龙茶粉主要应用液体乌龙茶饮料、固体乌龙茶饮料，还可以用于烘焙食品、糖果、饼干、面包、果冻、保健品等。

速溶茉莉花茶粉

产品简介 精选以云南绿茶、福建绿茶、广西优质茉莉花为原料研制的茉莉花茶茶叶，采用现代高新技术精炼而成，较大程度的保留了茉莉花茶茶叶的品质风味。

Instant jasmine tea powder

Product introduction

Our instant jasmine tea powder is made from Yunnan green tea, Fujian green tea and quality Guangxi jasmine and refined through modern high technology so as to largely maintain quality and flavor of jasmine tea.

Product feature

Instant jasmine tea powder is bright and clear in liquor, strong fragrance in smell, fresh and mellow in taste.

Product application

Instant jasmine tea powder can be applied for liquid jasmine tea beverages, solid jasmine tea beverages, frozen foods, sweets, breads, cosmetics and health care products.

产品特点 速溶茉莉花茶粉汤色黄绿明亮，香气浓郁高长，鲜灵持久，滋味醇厚鲜爽。

产品应用 速溶茉莉花茶粉可应用于液体茉莉花茶饮料、固体茉莉花茶饮料、冷冻食品、糖果、面包、化妆品、保健品。

特色速溶茶产品

采用云南普洱茶为原料生产的速溶普洱茶粉

选用杭州焙茶为原料的速溶焙茶粉

使用湖南、湖北和四川砖茶原料生产的速溶砖茶粉

精选安吉白茶原料生产的速溶安吉白茶粉

选用福建福鼎和政和白茶生产的速溶白茶茶粉

以炒大麦为原料生产的速溶大麦茶粉

满足小包装速溶茶生产工艺和质量要求的中空制粒速溶茶、多微孔制粒速溶茶系列

满足特殊人群要求的低咖啡因、脱咖啡因速溶茶系列

Characteristic instant tea products

Instant Pu'er tea powder, with Yunan Pu'er tea as raw material;

Instant roasted tea powder, with Hangzhou roasted tea as raw material;

Instant brick tea powder, with tea of Hunan, Hubei and Sichuan as raw materials;

Instant Anji white tea powder, made from selected Anji white tea;

Instant white tea powder, made from Fuding and Zhenghe white teas of Fujian;

Instant barley tea powder, made from fried barley;

Hollow granulating instant tea and multi-micropore granulating instant tea series, meeting the manufacturing techniques and quality requirements of small pack instant tea;

Low caffeine instant tea and decaf instant tea series satisfying customer's special demands.

天然植物提取物

速溶菊花粉、菊花浓缩液

- 产品简介** 精选优质杭白菊为原料，采用先进萃取工艺精制而成速溶菊花粉、菊花浓缩液，富含菊甙、多种氨基酸、生物碱、挥发油、黄酮类、菊色素、维生素，微量元素等物质。
- 产品应用** 本品可应用于调配液体、固体菊花茶饮料，或与速溶茶、其他植物提取物复配成各种风味饮料；还可以用于烘焙食品、酒水、糖果、饼干、面包、果冻、化妆品、保健品等。

速溶玫瑰茄粉

- 产品简介** 玫瑰茄又名洛神花，本品精选洛神花原料，采用先进萃取工艺精制而成，有效的保留了洛神花中的有效成分。本品富含味酸、花青素、维生素、黄酮类、氨基酸等营养成分。
- 产品应用** 本品可用于调制液体、固体洛神花饮料，亦可作为天然酸味剂、天然调色剂用在其他食品中，以改善颜色和滋味，还可用于糖果、饼干、果冻、化妆品、保健品等中。

速溶生姜粉

- 产品简介** 精选优质生姜原料，采用先进萃取工艺精制而成速溶姜粉。姜粉中含有姜黄素、姜油酮、姜酚等生理活性物质外，还含有蛋白质、多糖、维生素和多种微量元素，集营养、调味、保健功效于一身。生姜粉在国际市场越来越受欢迎，尤其在东南亚、日本等国家和地区极为畅销。
- 产品应用** 本品可应用于调制液体、固体姜味饮料、生姜保健产品、糖果、饼干等。

辣木叶超微粉、速溶辣木叶粉

- 产品简介** 辣木，又称奇迹之树，原产于印度，辣木的叶子富含黄酮、氨基酸和微量元素等营养成分，有丰富的营养价值和医疗保健作用，可提高免疫力，排毒养颜，通肠利便，减肥等功效。
- 产品应用** 辣木叶超微粉可应用于奶茶、面包和保健品等产品中；速溶辣木叶粉可运用于饮料和保健品等产品中。

Instant chrysanthemum powder, chrysanthemum concentrated liquid

- Product introduction** Instant chrysanthemum powder and chrysanthemum concentrated liquid are made from selected high quality chrysanthemum morifolium ramat through advanced extraction technology and contain rich chrysanthemum glycosides, amino acids, alkaloids, volatile oil, flavonoids, chrysanthemum pigment, vitamins, trace elements and other substances.
- Product application** The product can be applied for making liquid, solid chrysanthemum tea beverages, or all kinds of special flavor drinks after compounding with other plant extractions, moreover, it can be used in baked foods, drinks, sweets, cookies, breads, jellies, cosmetics and health care products, etc.

Instant roselle powder

- Product introduction** The product is made from selected roselle, which is also called ilibiscus, through advanced extraction technology so as to maintain effective constituent of roselle effectively. The powder contains rich anthocyanins, vitamins, flavonoids, amino acids and other nutrients.
- Product application** The product can be applied for making liquid, solid roselle beverages, natural acid agent and natural color matching agent in other foods to change color and taste, moreover, it can be used in sweets, cookies, jellies, cosmetics and health care products, etc.

Instant ginger powder

- Product introduction** Instant ginger powder is made from selected high quality ginger through advanced extraction technology. Except for curcumin, zingerone, gingerol and other physiological activators, it also contains proteins, polysaccharides, vitamins and trace elements and integrates nutrition, seasoning and fitness. Ginger powder is more and more popular in international market, especially in Southeast Asia, Japan and other countries and regions.
- Product application** The product can be applied for making liquid, solid ginger beverages, ginger health products, sweets, cookies and etc.

Moringa Leaf Superfine Powder, Instant Melting Moringa Leaf Powder

- Product introduction** Moringa, also known as the miracle of the tree, originating in India, Moringa leaves are rich in flavonoids, amino acids and trace elements and other nutrients, has a wealth of nutritional value and health care role, can improve immunity, paiduyangyan, convenience, weight loss and other effects.
- Product application** Moringa Leaves ultra-fine powder can be applied to milk tea, bread and health products and other products; instant Moringa leaf powder can be used in beverages and health products and other products.

公司资质及体系认证

- 1.FSSC-22000食品安全管理体系认证
- 2.SC工业产品生产许可证
- 3.KOSHER产品认证
- 4.HALAL产品认证

Company's Qualification and Quality System Certification

1. FSSC-22000 Food Safety Management System Certification
2. SC Industrial Product Manufacture License
3. KOSHER Product Certification
4. HALAL Product Certification

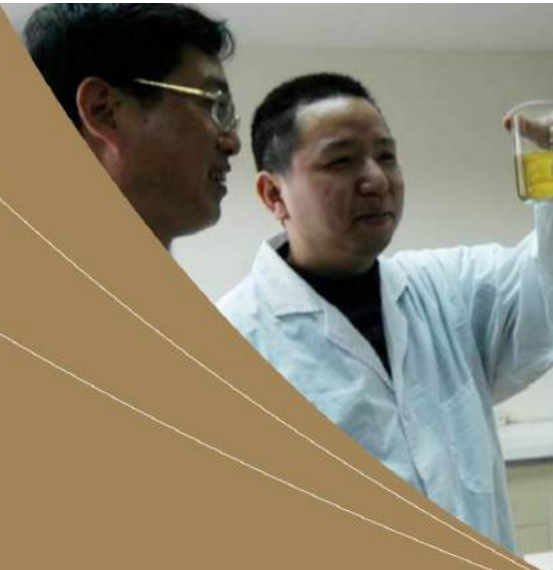

品质 and 安全管理

公司从成立时就树立了强化过程管理、致力持续改进、制造优质产品、满足客户要求的质量方针，确立了高起点的发展模式，特别重视产品质量的稳定性，现建有设施完善的感官审评室，理化检验室，微生物检验室及液相色谱和气相色谱检验室，配备有先进的UV和美国安捷伦的LC、GC等检测设施，能对原料到成品全过程进行及时准确的检测，保证产品的卫生安全

Quality and Safety Control

From the very beginning, the company has set up the quality policy of intensifying process management, dedicating to continuous improvement, producing high quality products and satisfying customers' requirements. Besides, it has established a development model of a higher starting point, attaching special importance to the quality stability of products. Now it has perfectly equipped laboratories for sensory evaluation physicochemical test, microbiological test, and liquid phase and gas phase chromatography tests, installed with advanced test facilities of UV as well as LC and GC of American Agilent. The whole process of production from the material to the finished products can be exactly and promptly examined, so that the health and safety norms may be concordant with the international standards.

Meantime, the company makes much account of the construction and management of quality control system, successively passing food safety management system authentication of GB/T22000-2006/ISO22000:2005 and FSSC-22000, QS production license of industrial products, and KOSHER and HALLAL pure food certifications. The company possesses a quality control team of superior ability, so as to assure the demand of quality system can be strictly and effectively carried out, and the products of the company provided to customers are safe and stable.

技术创新

公司成立之初就致力于科技创新，充分利用茶为国饮、杭为茶都的杭州茶产业平台的地缘优势，先后与中国农科院茶叶研究所及浙江大学茶学系等有关专家共同完成了“抗冷浑高香速溶茶”的开发和应用。近年来公司又不断加大研发投入，建立了先进的研发实验室和中试生产线，并将研究成果运用于生产实践，先后推出了高氨基酸速溶茶、高儿茶素速溶茶、高茶黄素茶红素速溶茶。在不断开发新产品、新技术的过程中，公司取得了多项发明专利和几十项实用新型专利。此外，公司还与日本、欧美的客户进行紧密合作，开发低咖啡因速溶茶、中空制粒速溶茶等新产品，使公司产品能满足国际市场的需求。

Technological Innovation

Since its foundation, the company has been dedicated to technological innovation. By giving full play to the geographical advantage of Hangzhou as the tea capital, and tea as the national drink, a platform of tea industry has been formed, and in cooperation with relevant experts in the Tea Research Institute, Chinese Academy of Agricultural Sciences, and the Tea Science Department, Zhejiang University, the company has achieved in the development and application of instant tea of strong fragrance and able to keep excellent purity when being dissolved in liquid at low temperature. In recent years, the company has incessantly increasing investment to establish advanced research and development laboratory along with pilot-scale experimental production line, has applied its achievements to production practice, and successively launches new products such as high amino acid instant tea, high catechinic acid instant tea and high theaflavin and thearubigins instant tea. During the process of unceasingly developing new products and new technologies, the company acquires several patents for invention and dozens of patent for utility models. Moreover, the company, in intimate cooperation with customers from Japan, Europe and the United States, has developed such new products as low-caffeine instant tea, hollow granulating instant tea, so as to meet the demand of international markets.

技术服务

公司集结多名在速溶茶行业有丰富经验的技术人才，以敏锐专业的眼光，专注于速溶茶领域的纵深发展，力求在技术深度，产品更新和应用创新方面有较大的突破。

我们非常重视服务的质量，从保证产品的质量，到售前售后服务，应用技术服务，乃至物流服务的每一个环节，都要求相关人员有严格的服务意识与规范，实现与客户的全方位对接。

Technical Service

The company has a large number of technical personnel with rich experience in instant tea industry. They sharply focus on the deep and broad development of instant tea and strive to make breakthrough in terms of technology depth, model change and application innovation.

We attach great importance to service quality, therefore, we request our workers in every link from quality control, pre-sale and after-sale service, application technical service to logistics service to have strict service consciousness and regulations, so as to realize all-round link to customers.

社会责任与感恩

我们在追求自身发展的同时，也十分注重企业对社会，对自然的回馈，履行着企业应尽的社会责任。

在公益事业、解决农村就业、建设和谐社会等方面，我们一直在不懈的努力。

我们不断改进生产工艺，采用先进设备和管理，达到节能减排、挖潜降耗的目的，实现人与自然、企业的和谐共存和可持续发展。

真诚地感谢社会各界和客户对我们的关心和支持，我们一直怀着深深的感恩之心！

Social Responsibility and Gratitude

While pursuing our own development, we also pay great attention to the feedback to society and nature, and perform the social responsibility due.

We have always been making constructive efforts to public welfare, rural employment and harmonious society construction.

We have been improving productive technology and adopting advanced facilities and management unceasingly so as to achieve the purpose of energy conservation and emission reduction and realize sustainable development and harmonious coexistence of human, nature and enterprise.

We sincerely appreciate the concern and support given to us by all sectors of society and customers, for whom we have been grateful all the time!
