# FAT&PROTEIN

# COFFEE MATE

- Improves the color of coffee
- Restrains the bitterness and covers the odd taste
- Adds a smooth and rich taste
- Suitable for all kinds of coffee products without dots and delamination

# MILK TEA NDC

- Improves the color, make it more brighter
- Restrains the bitterness of tea with the expansion of a fancy smell
- Natural milk flavor without artificial essence
- Good resolving ability after granulation
- High protein and good cost performance

# CEREAL NDC

- Improves the smoothness and milk flavor of oatmeal, cereal
- Improves the taste with a rich and smooth flavor
- Provides high protein to increase nutrition value
- Meets the health requirement of modern

# NDC FOR BAKING

- **Fries inside the bakery**
- **Makes the bakery finer**
- **Improves the physical property and plasticity**
- **Avoids aging of bakery and prolong shelf life**

# NDC FOR JUICE

- **The perfect realization of the flavor fusion of fruit and milk**
- **Ensures the stability of protein under the acid condition**
- **Strong milk flavor makes the juice more favorable**
- **The fashion element meets the requirement of youngers**

# FOAMING NDC

- The foam is in the upper part with soft and rich flavor
- Tea is in the down part with bright color and faint scent
- The mix of tea and foam will bring out an unique flavor
- High expansibility after whipping, fine foam

## NDC FOR CONFECTIONARY

- Add rich mouth feel
- Fulling for puff
- Use for biscuit layer
- Provide milk flavor

# WHIPPED NDC

- **Excellent sharp retention and stability**
- **Fine organization and delicacy**
- **low calories, more healthy**

# NDC FOR ICE CREAM

- Increase the expansion ration and refinement
- Improves non-fusibility and shape maintenance
- Enriches the milk flavor and avoid big ice crystal
- Briefs blend techniques, emulsification is stable
